

PPWR - Packaging Identification and Shipping Configurations

Annex to the Delivery Note

This annex lists the standard packaging and shipping configurations used for the goods stated on the accompanying delivery note from Gustav Heess Oleochemische Erzeugnisse GmbH. The applicable configuration depends on the product, package size, order quantity, customer requirements and transport conditions. It does not constitute the EU Declaration of Conformity pursuant to Article 39 of Regulation (EU) 2025/40.

1. Individual Shipments

Samples	
Primary Packaging	Suitable small containers, such as a tin, tin plate canister or plastic bottle with plastic closure
Secondary Packaging	Suitable shipping carton, sealed with adhesive tape (Backing material: PP / Adhesive: Acrylic)
Transport Packaging	No transport packaging required under the standard configuration
Load Protection	Plastic loose-fill material (PP) or bubble wrap (LDPE), as required
Identification / Documentation	Delivery note included
Single bag	
Primary Packaging	Bag
Secondary Packaging	Suitable shipping carton, sealed with adhesive tape (Backing material: PP / Adhesive: Acrylic)
Transport Packaging	No transport packaging required under the standard configuration
Load Protection	No additional securing under the standard configuration
Identification / Documentation	Bag and outer carton labelled; delivery note included
IBCs	
Primary Packaging	Intermediate Bulk Container (IBC: HDPE, galvanized steel outer cage and plastic skid pallet)
Secondary Packaging	No separate secondary packaging under the standard configuration
Transport Packaging	No transport packaging required under the standard configuration
Load Protection	No further protection required
Identification / Documentation	IBC labelled; delivery note included
